Infants and Children Asthma Canada

When you are worried about your child's asthma, it is best to see or talk to his/her doctor about your concerns. It will be helpful to keep a diary to figure out what non-allergic triggers affect your child's asthma. Asthma Action Plans monitor symptoms and have a written plan to follow when symptoms change. Ask your child's doctor to help develop an

Asthma in Children Care Instructions

Asthma makes it hard for your child to breathe. During an asthma attack, the airways swell and narrow. Severe asthma attacks can be life-threatening, but you can usually prevent them. Controlling asthma and treating symptoms before they get bad can help your child avoid bad attacks. You may also avoid future trips to the doctor.
