The New Globalization Going Beyond the Rhetoric BCG

The new globalization also calls for new metrics. Instead of tracking cross-border flows of physical goods, money, and people, it is becoming increasingly important to measure connected consumers, communities, devices, and machines and to monitor the flow of data and ideas. Companies that can recognize the underlying shifts, identify the new opportunities, and adapt to change will seize

Globalization Wikipedia

Globalization or globalisation is the process of interaction and integration among people, companies, and governments worldwide. As a complex and multifaceted phenomenon, globalization is considered by some as a form of capitalist expansion which entails the integration of local and national economies into a global, unregulated market economy.
