### **Intelligence cycle target centric approach Wikipedia**

The target-centric approach to intelligence is a method of intelligence analysis that Robert M. Clark introduced in his book "Intelligence Analysis: A Target-Centric Approach" in 2003 to offer an alternative methodology to the traditional intelligence cycle. Its goal is to redefine the intelligence process in such a way that all of the parts of the intelligence cycle come together as a network. It is a collaborative process where collectors, analysts and customers are integral, and information d

"Intelligence Analysis: A Target-Centric Approach is a major contributor toward making intelligence analysis a more scientific process. Those involved in behavioral analysis have tended to rely more on intuitive approaches and the historical method for their analyses. With Clark s text, behavioral analysts can learn the utility and procedures for making their analyses more systematic and
