Land and Labour Relations in South West Bangladesh

This book analyses different forms of relations between labourers and employers in rural areas, and the bases of such relations, in order to show how the various forms of labour relations are used as mechanisms of control and as a means of exploitation by the employers in rural areas of Bangladesh.

Land and labour relations in south west Bangladesh

The ambiguities and limitations of applying rigid theoretical concepts in defining labour, particularly in the context of a South Asian agrarian economy, are documented, demonstrating that sources of labour are not uniform, and that labour in the rural context is not a homogeneous commodity. Identification of labourers or groups with a common

Land and labour relations in south west Bangladesh

The book documents the ambiguities and limitations of applying rigid theoretical concepts in defining labour, particularly in the context of a South Asian agrarian economy (two villages in the south-west delta of Bangladesh, with fieldwork collected from June 1987-August 1988). The paper demonstrates that sources of labour are not uniform, and
