Guy Bower delves into a topic every trader should

they call 'money management'. When I read the first book in 1990 I had no idea what money management was. Was it making sure your stops are in place? Was it just being careful with your cash? What was it? Money management in the context of trading refers to what a gambler might call 'bet sizing'. It is how many contracts to trade on a certain strategy, given a certain bankroll. In my

Money Management for Trend Following The Original

Money management is risk management. Risk management is the difference between success or failure in trading. Trading correctly is 90% money and portfolio management. Unfortunately, this is a fact that most people want to avoid or don't understand. Once you have your money management under control, your discipline and psychology is 100% of your success.
